

Istruzioni per costruire le carte

- Stampare le pagine delle carte su fogli separati (in fronte-retro non ho provato ma temo che in trasparenza si veda la risposta)
- ritagliare lungo il margine esterno delle singole tabelle
- incollare dorso a dorso le carte delle somme parlate alla propria soluzione
- una volta incollate, ritagliare le singole carte e plastificarle separatamente l'una dall'altra, così che resti un margine plastificato tutto intorno che le rende più resistenti
- ritagliare e plastificare titolo e istruzioni

LE SOMME PARLATE

somme nascoste tra le parole!
